My expert witness work has been covered by the following publications:

My research into sport litigation abuse was highlighted in congressional hearing in the **House Report 108-682 - LAWSUIT ABUSE REDUCTION ACT OF 2004**

ABC News reported that:

When his 16-year-old son didn't get the most valuable player award, Michel Croteau didn't get upset. He hired a lawyer and sued his son's youth hockey league to the tune of more than \$200,000 . . . The Croteaus are not alone. In the last year, parents have filed more than 200 non-injury-related sports lawsuits against coaches, leagues and school districts in the United States, according to Gil Fried, a University of New Haven professor who specializes in sports law . . . The Butzke family sued the Comsewogue, N.Y., school district because their eighth-grade daughter was taken off the varsity high school soccer team. The Branco family took legal action against the Washington Township, N.J., school district after their son, David, was cut from the junior varsity basketball team . . . The Rubin family sued California's New Haven Unified School District for \$1.5 million because their son got kicked off the varsity basketball team . . . The family felt James Logan High School Coach Blake Chong may have cost their son not just a scholarship, but an NBA career. 26
